

Class 6

Modern languages

In Modern Languages we will be looking at greetings and salutations in French as part of a 'Getting to know you' topic. The children will learn how to pronounce and spell the unfamiliar words and will be applying their knowledge in using these words in simple songs.

Physical Education

This term the children will be developing their skills striking and fielding games with Mr Tyas.

Swimming lessons will be starting for all Y4 pupils on Tuesday afternoons in September starting on the second week back and running until the first week in December - please fill in the forms and return them to school.

Our PE days are likely to be on Wednesdays and Fridays. However, this is subject to change so, please make sure your child is prepared with their PE kit every day. PE kit comprises a white t-shirt, dark coloured shorts and a change of footwear. Earrings should be removed and long hair needs to be tied back.

Personal, Social and Health Education (PSHCE)

In PSHCE this term, the children will be combining their learning with their ICT learning to develop their understanding of e-safety. The children will learn how to be responsible online and will learn the correct way to respond to inappropriate online behaviour.

Philosophy for Children (P4C)

The children will continue to take part in P4C lessons to develop their speaking and listening skills as well as their critical and creative thinking. This term we will be using stimuli linked to our class text, Stig of the Dump to develop our discussions.

We hope you find this information useful and that it may help you have a better understanding of what your children may tell you about their time in school.

Dear Parent/Carer,

This information leaflet is to inform you of the curriculum that we will be teaching to your child this term. Our novel this term is 'Stig of the Dump' by Clive King. We will be learning about recycling and how it affects the environment. We hope to visit a recycling site at Wakefield in September where we will be able to witness what happens when lorries return to the depot.

Our topic question is: 'How would YOU change our world?'

We ask that you try to hear your child read regularly, continue to practise Maths passports and further your child's learning with My Maths and Times Tables Rockstars challenges. Most children are now completing the Active Learn reading challenges regularly. Please check and sign their diary to verify each book they complete with you. Every dojo counts!

Thank you,

Mrs J K Fearnley (Head Teacher)
Mr N Williams (Head of School)
Mrs Raison (Class Teacher)

English (Literacy) and Mathematics

In Literacy this term, we will be focusing our learning around the book, 'Stig of the Dump', by Clive King. We will be writing narratives based around our novel, creating diary entries and poetry, as well as balanced arguments and discussions.

In Mathematics, we will be focusing on place value and the four rules (addition, subtraction, multiplication and division) solving word problems and explaining our reasoning.

Information and Communications Technology (ICT)

The children will be combining their ICT and literacy learning to develop their understanding of E-safety. We shall be using Comic Life and Purple Mash to help us develop our digital skills.

Science

In science, we will be focusing on 'Electricity' this term. We will be learning about the components of simple electrical circuits and what happens when these are reduced. We will also be developing our understanding of which materials make good electrical conductors and will be completing investigations involving these.

We will also cover the Water Cycle and States of Matter this term.

Religious Education

Assemblies this term are centred around the Bible stories from Christianity to include New and Old Testament stories. We will be learning about the key symbols of this religion, as well as the traditional celebrations and stories.

Art

In Art, the children will be looking at the life and works of Arcimboldo and creating our own masterpieces in his style, using a variety of techniques and media.

Design Technology

Your child will be making treasure from trash! We have a few exciting ideas planned this term and may be asking for some of your unwanted items to upcycle!

Music

In music, the children will be learning to sing a variety of songs and continuing to learn notation and how to play their new trumpets with Miss Dawes, in preparation for their performance at the Big Blast at Magna.

History and Geography

During Autumn Term, we will be learning about the countries of the world and how pollution affects our planet.

In Geography, we will use digital maps as well as atlases to find out where countries are situated.
