

TESTING FOR HOUSEHOLDS WITH CHILDREN OF SCHOOL

AGE - FAMILIES AND SUPPORT BUBBLES

Whole families and households with primary school, secondary school and college age children, including child care and support bubbles, will be able to test themselves twice every week from home as schools return from 8 March.

You will be given a box of Lateral Flow Test kits to allow you to test yourself at home. These tests help identify anyone that does not have symptoms (asymptomatic) but may be infectious. If the tests identifies you as positive you **MUST** then book a PCR test (standard test) to confirm this result.

*We **strongly encourage** you take this opportunity to take part in the new testing to support the in fight against COVID 19 and help keep our school community safe.*
